

Product Safety & Disclaimer

OneShotTargetSystems LLC manufactures and sells target carrying systems only and does not manufacture, supply, or guarantee any targets or third-party accessories used in conjunction with the system.

Intended Use

This product is designed strictly for outdoor recreational use. It is not intended, marketed, or approved for professional training, tactical applications, dynamic shooting drills, safety certification programs, or instructional use of any kind.

"Pistol Caliber" Use Limitation

This system is intended for use with "pistol caliber" firearms only. This designation refers solely to the general environment of use and does not imply that the system is designed to withstand direct projectile impact. Direct gunfire to any component of the system will result in damage.

Exposure to Damage and Wear

Due to its placement within an active shooting environment, the product is inherently exposed to destructive forces. Users acknowledge that:

- The system will experience wear and degradation over time
- Direct or indirect impacts may cause immediate or progressive damage
- Cosmetic and structural damage is a normal and expected outcome of use

No Replacement for Shot Components

Any component that is struck by gunfire, whether intentional or accidental, is not eligible for replacement, refund, or warranty coverage.

User Responsibility

The user assumes full responsibility for proper setup, stabilization, and safe positioning of the system. The user must ensure that only the intended target is engaged and that the system itself is not used as a target.

Limitation of Liability

OneShotTargetSystems LLC shall not be held liable for any injury, death, loss, or damages arising from misuse, improper setup, poor marksmanship, or failure to follow safe firearm handling practices.

By purchasing or using this product, the user acknowledges and accepts all risks associated with its use.
